INTERNATIONAL JOURNAL OF ANDROLOGY
Volume 12, 1989

Contents

VOLUME 12, NUMBER 1, FEBRUARY 1989

L. Abramsson and M. Duchek
A prognostic score for subfertile men based on anamnestic data and semen variables 1

K. Purvis, A. Tollefsrud and H. Rui
Correlates of human sperm motility assessed by laser Doppler spectroscopy 10

A. Dahlberg and Outi Hovatta
Anejaculation following spinal chord injury does not induce sperm-agglutinating antibodies 17

F. Krassnigg, H. Niederhauser, E. Fink, J. Frick and W.-B. Schill
Angiotensin converting enzyme in human seminal plasma is synthesized by the testis, epididymis and prostate 22

D. R. White and R. J. Aitken
Influence of epididymal maturation on cyclic AMP levels in hamster spermatozoa 29

W. D. Ratnasooriya and R. M. Sharpe
Evaluation of the effect of selective germ cell depletion on subsequent spermatogenesis and fertility in the rat 44

Z. X. Wang, N. G. M. Wreford and D. M. de Kretser
Determination of Sertoli cell numbers in the developing rat testis by stereological methods 58

M. Maggi, Patricia L. Morris, S. Kassis and D. Rodbard
Identification and characterization of arginine vasopressin receptors in the clonal murine Leydig-derived TM_3 cell line 65

Z. Krawczyk and N. Szymik
Effect of age and busulphan treatment on the hsp70 gene-related transcript level in rat testes 72

Gabriel N. Egbunike
Enhanced conception by stored porcine sperm stimulated with chloroquine 80

D. Nashan, U. Malorny, C. Sorg, T. Cooper and E. Nieschlag
Immuno-competent cells in the murine epididymis 85

VOLUME 12, NUMBER 2, APRIL 1989

R. J. Aitken
Editorial: The role of free oxygen radicals and sperm function 95

P. L. Matson, S. M. Junk, J. R. W. Masters, J. P. Pryor and J. L. Yovich
The incidence and influence upon fertility of antisperm antibodies in seminal fluid following vasectomy reversal 98

S. Bianchi, G. Gravina, A. Podestà, D. Barletta, F. Franchi, P. Kicovic and M. Luisi
Treatment of complicated benign prostatic hyperplasia with LHRH-analogues in aged patients 104

C. L. R. Barratt, L. M. Havelock, P. E. Harrison and I. D. Cooke
Antisperm antibodies are more prevalent in men with low sperm motility 110

P. L. Matson, S. A. Troup, B. Lowe, Z. H. Z. Ibrahim, R. W. Burslem and B. A. Lieberman
Fertilization of human oocytes *in vitro* by spermatozoa from oligozoospermic and normospermic men 117

Eva Åkerlöf, B. Fredricsson, O. Gustafson, N. O. Lunell, L. Nylund, L. Rosenborg, H. Slotte and Å. Pousette
Serum factors stimulate the motility of human spermatozoa 124

S. Moulik, G. Ranga, P. K. Meherji and S. K. Shahani
Detection of immunosuppressive activity in human seminal plasma by an immunobioassay 131

M. Bergmann, G. Schleicher, R. Böcker and E. Nieschlag
True hermaphroditism with bilateral ovotestis: a case report 139

K. S. Sidhu and S. S. Guraya
Calmodulin-like protein in buffalo (*Bubalus bubalis*) seminal plasma and its effect on sperm Ca^{++}, Mg^{++}-ATPase 148

P. H. Chow and W. S. O
Effects of male accessory sex glands on sperm transport, fertilization and embryonic loss in golden hamsters 155

VOLUME 12, NUMBER 3, JUNE 1989

R. J. Santen
Editorial: Hormonal therapy of prostate cancer: choosing among several available options 165

K. Purvis, A. Tollefsrud and H. Rui
Stability of sperm characteristics in men with disturbances of sperm quality 171

L. Wichmann, A. Vaalasti, T. Vaalasti and P. Tuohimaa
Localization of lactoferrin in the male reproductive tract 179

B. Polak and B. Daunter
Seminal plasma biochemistry. IV: enzymes involved in the liquefaction of human seminal plasma 187

E. Jungreis, M. Nechama, G. Paz and T. Homonnai
A simple spot test for the detection of fructose deficiency in semen 196

Ethel Szerman-Joly, Agnes Sauvalle, J. Izard and M. Drosdowsky
Comparison of two techniques used to collect normal and motile sperm 199

P. P. Pöllänen and B. P. Setchell
Microvascular permeability to IgG in the rat testis at puberty 206

T. Normand, Christiane Jean-Faucher and C. Jean
Developmental pattern of androgen-regulated proteins in seminal vesicles from the mouse 219

J. P. Rodríguez and J. J. Minguell
Synthesis of extracellular matrix components by somatic testicular cells from immature and pubertal rats 231

Meeting report
New approaches to the pathophysiology of male infertility 240

Announcement 250

VOLUME 12, NUMBER 4, AUGUST 1989

J. A. Grootegoed
Editorial: Proto-oncogenes and spermatogenesis 251

World Health Organization Task Force on the Diagnosis and Treatment of Infertility
Mesterolone and idiopathic male infertility: a double-blind study 254

W. Aulitzky, J. Frick and F. Hadziselimovic
Pulsatile LHRH therapy in patients with oligozoospermia and disturbed LH pulsatility 265

D. M. de Kretser, P. C. O'Leary, D. C. Irby and G. P. Risbridger
Inhibin secretion is influenced by Leydig cells: evidence from studies using the cytotoxin ethane dimethane sulphonate (EDS) 273

A. J.-H. Adeghe, J. Zhang, J. Cuthbert and M. Obhrai
Antisperm antibodies and sperm motility: a study using timed exposure photomicrography 281

G. F. Gonzales, M. A. Garcia-Hjarles, R. Gutierrez and R. Guerra-Garcia
The secretory activity of the seminal vesicles and its relationship to sperm motility: effects of infection in the male reproductive tract 286

R. M. Sharpe and S. Maddocks
Evaluation of the relative importance of endocrine and paracrine factors in control of the levels of inhibin in testicular interstitial fluid 295

M. Veijola and H. Rajaniemi
Interaction of hCG with testicular interstitial fluid produces a leucotactic factor 307

S. Kaur
Effect of gossypol on the concentration of sodium and potassium in the rat epididymis 318

Y. P. Agrawal and T. Vanha-Perttula
γ-Glutamyl transpeptidase in rat epididymis: effects of castration, hemicastration and efferent duct ligation 321

VOLUME 12, NUMBER 5, OCTOBER 1989

J.-H. Grunert, C. de Geyter, J. Bordt, H. P. G. Schneider and E. Nieschlag
Does computerized image analysis of sperm movement enhance the predictive value of semen analysis for in-vitro fertilization results? 329

S. Y. W. Chan, C. Wang, B. L. Song, T. Lo, A. Leung, W. L. Tsoi and J. Leung
Computer-assisted image analysis of sperm concentration in human semen before and after swim-up separation: comparison with assessment by haemocytometer 339

R. Mieusset, J. Parinaud, H. Chap and G. Pontonnier
Absence of correlation between the levels of ATP and other seminal compounds in semen and the results of human in-vitro fertilization 346

R. Baumal, D. Bailey, A. Giwercman, N. Skakkebæk, M. Stratis and A. Marks
A novel maturation marker for human Sertoli cells 354

A. M. W. Toebosch, R. Brussée, A. Verkerk and J. A. Grootegoed
Quantitative evaluation of the maintenance and development of spermatocytes and round spermatids in cultured tubule fragments from immature rat testis 360

U. A. Knuth, J. Neuwinger and E. Nieschlag
Bias to routine semen analysis by uncontrolled changes in laboratory environment—detection by long-term sampling of monthly means for quality control 375

C. H. Yeung, T. G. Cooper, G. F. Weinbauer, M. Bergmann, G. Kleinhans, H. Schulze and E. Nieschlag
Fluid-phase transcytosis in the primate epididymis *in vitro* and *in vivo* 384

VOLUME 12, NUMBER 6, DECEMBER 1989

H. M. Behre, Dorothée Nashan and E. Nieschlag
Objective measurement of testicular volume by ultrasonography: evaluation of the technique and comparison with orchidometer estimates 395

Z. Gui-yuan, J. Meng-chun, C. Jin-lai and Y. Wen-ging
The effect of long-term treatment with crude cotton seed oil on pituitary and testicular function in men 404

K. Svanborg, C. Gottlieb, E. Bendvold and M. Bygdeman
Variation in, and inter-relationship between, prostaglandin levels and other semen parameters in normal men 411

Caroline M. Doig
Use of laparoscopy in children with impalpable testes 420

S. Mićić, M. Macura, N. Lalić and R. Dotlić
Elastase as an indicator of silent genital tract infection in infertile men 423

C. B. Dhabuwala, A. B. Kumar, P. D. Kerkar, A. Bhutawala and J. Pierce
Patterns of Doppler recordings and its relationship to varicocele in infertile men 430

E. Castellón, A. Janecki and Anna Steinberger
Age-dependent Sertoli cell responsiveness to germ cells *in vitro* 439

M.-S. Liu, Y. Yang, J. Pan, H.-W. Liu, A. C. Menge and C.-Y. G. Lee
Purification of an acrosomal antigen recognized by a monoclonal antibody and antifertility effects of isoimmune serum 451

V. Syed, M. Lindh, S. A. Khan and E. M. Ritzén
Hormonal regulation of a rat seminiferous tubule factor which inhibits LH action on interstitial cells 464

Announcements 473
